Step 4 – Features of the inquiry making tool

Describe your sample:

Tips:.   *1. Please feel free to list any **data about your samples**: drawings, specification sheets, coating description, etc. We promise to keep it confidential! As a result we would be able to offer you the best testing procedure according sample specifications. Also, part of information **goes straightly to testing report***.

*2. Have **2 or more samples** with the same or similar specifications? Don't waste your time and **duplicate** samples*

Describe required testing parameters:

Step 2: Test List – What kind of tests do you need?
